# 2010 Workshop Complying with North Carolina Water Quality Regulations

A Practical Workshop  
for Wastewater  
Dischargers

Monday, March 1, 2010  
8:30 AM - 4:30 PM  
McKimmon Center  
Raleigh, North Carolina

A joint presentation of

# Learn From The Experts

## About The Workshop

Do you have questions about North Carolina's water quality laws and regulations?

Are you unsure about how NEW state Water Quality Standards may impact your NPDES or Pretreatment permit?

Are you concerned about how your wastewater operations would be evaluated during a regulatory inspection?

The North Carolina Division of Water Quality (DWQ) is the best first stop for answering those questions.

In this workshop, you can learn first hand from the staff of DWQ what they expect from regulated sources.

This year's workshop will include a special presentation on proposed new North Carolina Water Quality Standards.

Under the new standards, direct and indirect dischargers may see a substantial tightening of their wastewater permit limits for metals and nutrients (as measure by chlorophyll a). Learn

how these new standards may impact your NPDES or Pretreatment permit in the near future

Other topics sure to be of interest to permitted sources include: who to contact at DWQ, pretreatment rules, interbasin transfers, TMDLs, and stormwater from construction activities.

In addition, an enforcement panel from the regional offices and the Raleigh compliance staff will be available to answer all your enforcement questions.

## Materials Provided

The registration fee includes a Workshop Manual containing copies of all presentations and supporting material. The registration fee also includes a hot buffet lunch and breaks during the day.

## Continuing Education

The program has been approved for 6 hours of continuing education credit (Course #CE09190601) for Water Pollution Control System Operators by the Water Pollution Control System Operators Certification Commission (WPCSOCC). Students will be given a certificate of attendance at the conclusion of the program.

## Workshop Tuition

Standard Tuition - \$150.00

MCIC Member Tuition - \$125.00

Late Fee - \$25.00

(For registration or payment received after February 24, 2010)

## Registration

Complete enclosed *Registration Form*, or register online at: **www.mckimmon.org**

## Directions

### To McKimmon Center:

**From I-40 Eastbound:** Exit 295 (Gorman Street). Turn left onto Gorman Street. Go approximately 1 mile. McKimmon Center is on the right past Avent Ferry Rd. before Western Blvd.
